Summary: Just a little story I wrote about Emily & Colton. Btw this isn't about the TV show it's written about the actors and actresses that make Arrow happen. 3

## 1. Chapter 1

Emily was never the early type. She was always getting to places later. But on this day she decides to go in early like two hours for the fact she was also going to meet her boyfriend Colton who she had been dating for about a month now and go to a local diner to eat and then go to the studio to work on Arrow.

Emily always wanted to look her best, but she felt different when she was around Colton , she felt like...herself. She could just be... what she loved about him she didn't have to try and impress him or anything like in previous situations.

So they young blonde put in a pair of light blue shorts and a floral crop top on with her hair curled up in a pony tail with bright pink lip stick and some black high was on her way to see her love...

She was going to meet him at the little diner down the street. Of coarse he was there before her. He always would be. She walked up to him and gave him a hug. Thy wanted to keep there relationship as privet as possible. They didn't even tell the crew!

" you look beautiful for a Monday morning". Colton joked and Emily did s half smile as she had her head on his shoulder and his hand on her waste. Once they were seated at a both they started chating, mostly small talk and about arrow and stuff.

When they were done eating they meet up once more at the studio still early then anyone. Once they walked in the studio together they started acting crazy and silly like Colton picking Emily up and trying on funny hats and stuff. Little did they know seconds later they were pushed up against the wall making out forcefully. Seconds

turned into minuets. And they totally blocked out everything except each other. Well that is until Stephan arrived.

"What the hell?"

## 2. Chapter 2

"What the hell"

That's what snapped us out of are gauze. I just look up and said

"Hi"

It was the only thing I could really think of my brain to say.

Then David came

" what is going on over here..." Dav said with a huge smile on his lips and his hands on his hips. By now Colton and I were out of whatever you wanna say it was since we WERE making out on a wall IN the studio. It was bound to happen one of these days.

On the other hand, Colton was holding me by the waste and whispered in my ear " wanna tell them" I nodded my head in response. Then once Stephan and David got the whole crew over here Colton told them.

"Emily and I have been going out for about a month now"

I started blushing.

After this little fiasco we all started work. We were working on the final of Arrow and then we decided to start planning season four.

After a few hours it was time to leave. I was actually leaving with Colton, we are gonna get a pizza and watch a few movies tonight which sounds like really good.

When they got in the head of the apartment they gave each other a peck on the lips and where off to do there part. Emily was to pick the movie and had picked Jurassic Park, with the Dino's because why not. And Colton was in charge of cooking.

After they eat and chat it was about 9:30 at night is and after a few drinks they were dazed. Next thing Colton is on top of Emily on his bed and we all know what happens after that...

## 3. Chapter 3

The next morning I wake up in his arms, God his arms they are soooooo beautiful. I of coarse said to myself as I was drifting up into space Colton woke up.

"Good morning Blondie" he said

And I jumped " God! I said

" sorry" he said softly

I laced in his arms for what seemed like I noticed the clock.

"holy Shit!" I said out loud. He knew what I was thinking and soon we were off the bed and getting ready. It was the last day of filming arrow how could we forget, well I guess what happened last night was a good reason but still. How. .forget. I through on a light blue skater dress that had pineapples all of it. My favorite. With some white heels,with my usual make-up and my hair in a pony tale. Colton was wear well... What Colton usually wears.

We grapped a coffee and something to eat from Starbucks and were on are way to the studio.

Once we were at the studio we did work as usual, after work was over Colton and I decided to go on a date and agreed on Olive Garden.

I wore a dress similar to the dress when " Oliver and Felicity" went on a date. Which was a long pink dress with my hair down curled.

Once I met Colton there we got are drinks and ordered and also started chatting. Mostly about the weather and the news. Small talk mostly. When are food arrived we started eat until Coltons phone buzzed. Of coarse being Colton he picked it up asap and read the message.

" who is it" I asked

" it was a text from Katie, she wants us to go to Canada with David,her, and Stephen" he replied

" oh....um....errrr...help he out here ..."

" how about a yes..."

"Yessssssss"

I was so happy.

" you know that's where I was born right"

They then got into that conversation that went on and on and on.

End  
file.
